COOKIE POLICY

A cookie is a small piece of data that a website & app asks your browser to store on your computer or mobile device. The cookie allows the website & app to “remember” your actions or preferences over time.

Most browsers support cookies, but users can set their browsers to decline them and can delete them whenever they like.

If you use PeerHub, both PeerHub and third parties will use cookies to track and monitor some of your activities on and off PeerHub, and store and access some data about you, your browsing history, and your usage of PeerHub.

This policy describes how both PeerHub and other third parties use cookies both within and without PeerHub and how you can exercise a better control over cookies. Please keep in mind that this may alter your experience with our platform, and may limit certain features (including being logged in as a user).

General Browsing: We use cookies that are important for certain technical features of our website & app, like logging into user accounts and implementing fixes and improvements to our platform.

These cookies help us:

- Remember users’ custom preferences and help create more useful products
- Allow users to opt out of certain types of modelling, tailoring, or personalization in our products
- Collect information on our users’ preferences to create more useful products
- Cookies can also be used for online behavioural target advertising and to show adverts relevant to something that the user searched for in the past

Advertising: We use cookies to enable advertising with our third-party Partners, which in turn allows us to provide many of our services free of charge.

These cookies:

- Customize the ad experience for our users, including tailoring job and display ads to the technologies a person has previously looked at, the communities a person has visited, and the job ads a person has already seen
- Allow direct communication between a 3rd party partner who hosts a promotional event with us, and users who have opted into the promotion
- Allow us to track when a PeerHub user sees or clicks on an ad or later visits a third-party website & app or purchases a product on a third-party website & app
- Collect impressions and click data for internal reporting and product optimization

Analytics: We use cookies to compile usage activity to better cater our Products and Services offerings to you, and to third parties. We DO NOT share identifiable “raw” data with our clients or any third parties, however, we do make high-level decisions based on aggregated data about your usage of our Products and Services.

These cookies:

- Monitor site traffic and behaviour flows of users
- Measure the effectiveness of on-site products
- Measure the effectiveness of off-site marketing campaigns and tactics

WHAT INFORMATION IS COLLECTED ON ME VIA COOKIES?

- Unique identification tokens
- User preferences

Third Party Cookies

The use of cookies, the names of cookies, and other cookies related to cookie technology may change over time and PeerHub will make all reasonable efforts to notify you. Please also note that companies and other organizations that sponsor pages on PeerHub may use cookies or other technologies to learn more about your interest in their products and services and in some cases to tailor such products and services to you.

HOW DO I RESTRICT COOKIES?

Please note that PeerHub may not work properly and you may have diminished functionality if you wish to opt-out of certain cookies.

If you decide that you do not want cookies to be set on your device by our third-party Partners, you can adjust the settings on your internet browser and choose from the available Cookies setting to best meet your preferences. While setting options may vary from browser to browser, you can generally choose to reject some or all cookies, or instead to receive a notification when a cookie is being placed on your device. For more information, please refer to the user help information for your browser of choice. Please keep in mind that cookies may be required for certain functionalities, and by blocking these cookies, you may limit your access to certain parts or features of our sites and platforms.

Finally, while cookies are set for varying durations on your device, you can manually delete them at any time. However, deleting cookies will not prevent the site from setting further cookies on your device unless you adjust the settings discussed above.
